

TEMPEST COBALT- DAWN CLEMENT

After a successful career as a jazz artist, Seattle pianist/composer/vocalist Dawn Clement expands her palette of expression into the realm of contemporary pop with *Tempest Cobalt*. This 10-track collection is a melodic narrative that tenderly reflects on themes such as passages, struggle, redemption and love. Ethereal vocals, delicate tension and elegant harmonies create a dreamy intimacy and lyrics, with references to nature, color and light, evoke a sense of spacious optimism throughout. Half of the songs feature a solo Clement on voice and piano. The other half includes Charlie Smith on bass and keyboards and Lena Simon on drums, guitar, clarinet and vocals. *Tempest Cobalt* is Clement's fourth CD to date and marks her debut as an up and coming songwriter.
